-  ENTERPRISE
-  LAW ENFORCEMENT

# Innovatrics ABIS

## The Innovatrics Automated Biometric Identification System

Leveraging industry-leading technology, Innovatrics ABIS is aimed at system integrators and solution providers who require an easy-to-integrate, scalable, standards-compliant and high-performance biometric solution.

### Configurable and Multimodal

ABIS Modules

 Forensic Module	 Exception Management
 Enrollment	 Video Analysis
 DISASTER RECOVERY	 ABIS DATA STORAGE

Biometric Modalities

		Face
		Fingerprint
		Iris

### Key Advantages

#### Fast and Accurate

Top-ranked in biometrics benchmarks

#### Proven Track Record

Successfully implemented in 80+ countries

#### Flexible Licensing

Licensing policies to suit the needs of each project

#### Scalable

Scales efficiently to meet increasing workloads or number of enrollees

#### Open Architecture

Easy to integrate into your existing environment

#### Digital Onboarding

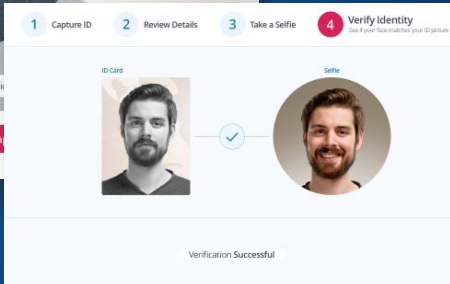

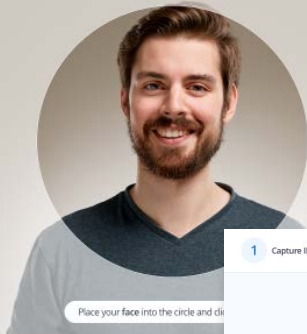

Register and verify users via mobile or web application

# GOVERNMENT ABIS

Comprehensive biometric people registration system for governmental applications and civil registries.

- ✓ IDs and Passports
- ✓ Elections
- ✓ Border Control
- ✓ Social Security
- ✓ Healthcare

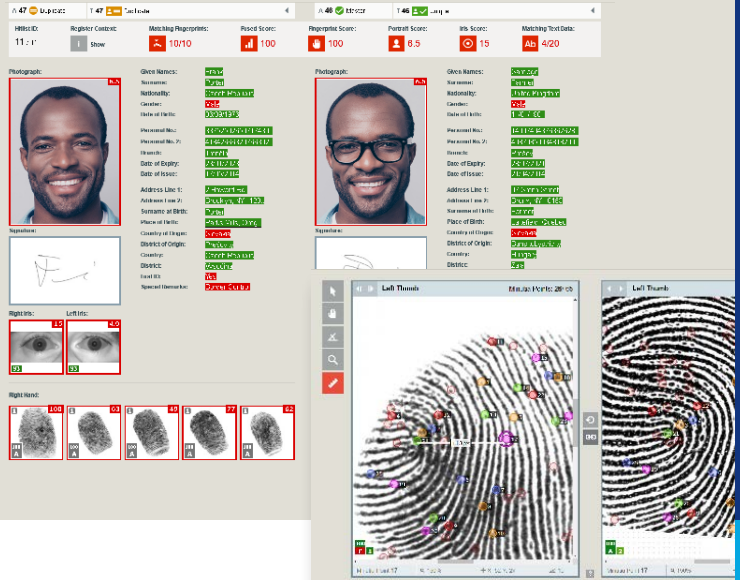

- 1 Capture ID
- 2 Review Details
- 3 Take a Selfie
- 4 Verify Identity

# LAW ENFORCEMENT ABIS

Resolve criminal cases, identify suspects and secure borders using advanced technology and user-friendly interface.

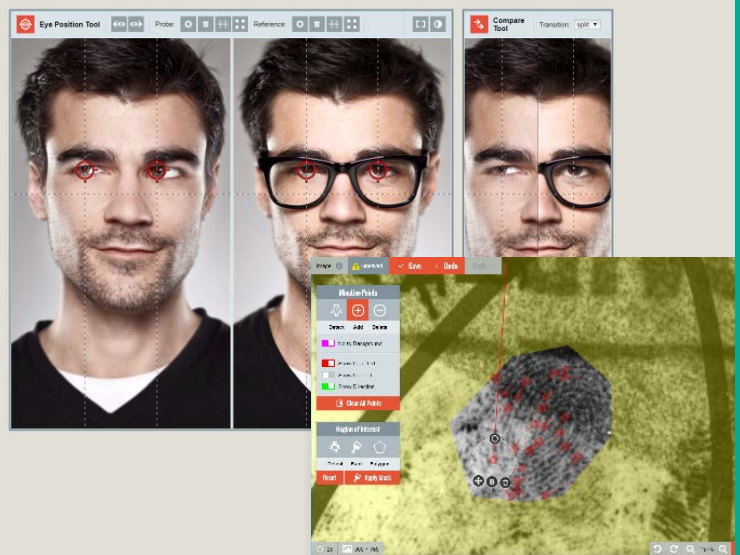

- ✓ Criminal Investigation
- ✓ Field Identification
- ✓ Airport Security

# ENTERPRISE ABIS

Attract new and retain existing customers through fast, safe, paperless onboarding and authentication.

- ✓ Risk Assessment
- ✓ Loyalty Programs
- ✓ Digital Onboarding
- ✓ Fraud Prevention

## Success Stories

### Middle East – Government ABIS

#### BORDER CONTROL

This Middle Eastern country controls high-volume border crossings using a real-time biometric identification system.

- Full migration from legacy system in 3 weeks
- Short system response time reduces queues
- 24/7 operation with on-site support

✓  
60 | 100k  
MILLION | CROSSINGS  
records | per day

### Home Credit – Enterprise ABIS

#### DIGITAL ONBOARDING AND IDENTITY VERIFICATION

Demand for consumer loans in APAC is growing rapidly. Home Credit, a market leader, uses facial biometrics to digitally identify and verify new customers.

- Identity document capture and verification via Digital Onboarding Toolkit
- Preventing fraud through real-time duplicate check in ABIS database
- Fully automated digital onboarding via client mobile application

✓  
4 | 20  
COUNTRIES | MILLION  
customers

### Indonesia – Law Enforcement ABIS

#### CRIMINAL INVESTIGATION

One of the biggest ABIS projects worldwide allows this government agency to find people in consolidated civil and criminal registries.

- Mobile devices allow real-time identification in the field
- Fast identification of natural disaster victims
- Enhancement of latent fingerprints collected from crime scenes
